

ARKIVY:

MESSAGING COMPLIANCE -
CONTROL THE FLOW

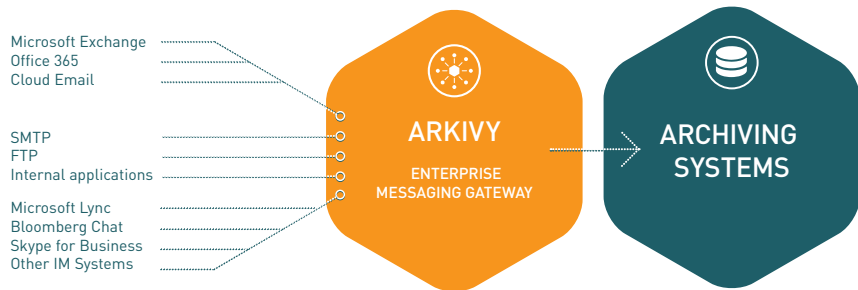

“The automated collection and reconciliation of electronic communications archiving is essential for messaging compliance.”

Allen Frasier,
Director of Compliance Products, KSF
Technologies AG

THE SOLUTION – ARKIVY KEY BENEFITS

- Provides a true data governance platform for enterprise message archiving
- Collects all of your messaging streams
- Inventories your data
- Forwards your data to your archiving system
- Creates statistical profiles to measure volume
- Alerts you when volumes deviate from expected values
- Creates a rich index for “big data” analytics
- Provides a storage buffer between source systems and archiving systems for replay if needed
- Audits and reconciles collected data with archiving systems
- Provides an API for direct importing and data export
- Enterprise level mission control via a dashboard
- Rich reporting and gap analysis tools

AVOID NON-COMPLIANCE - CONTACT US:

Arkivy@ksftech.com

REGULATORY, LEGAL AND SELF-GOVERNANCE PRESSURES ARE DRIVING FOR THE ABSOLUTE AND COMPLETE ARCHIVAL OF ALL ELECTRONIC MESSAGING.

ENTERPRISE SOFTWARE THAT CAN MANAGE THE WORKFLOW FROM SOURCE SYSTEM DATA EXPORT TO ITS RESTING STATE IN AN ARCHIVE HAS NOT BEEN FORTHCOMING UNTIL NOW.

ARKIVY PROVIDES AN ADVANCED COLLECTION AND MONITORING SYSTEM TO HELP YOUR ORGANIZATION GET CONTROL OF YOUR DATA FROM SOURCE TO ARCHIVE.
