SOFTWARE DEVELOPMENT

YOU WILL ENJOY THE PROCESS AND THE RESULT

THE COMPLEXITY OF SOFTWARE AND ITS SURROUNDING TECHNOLOGIES IS A PERMANENTLY GROWING TREND. THE DISTANCE BETWEEN BUSINESS USERS AND INFORMATION TECHNOLOGY INCREASES AND TECHNICAL LIMITATIONS OFTEN OVERCOME BUSINESS REQUIREMENTS, WHICH IMPACTS THE QUALITY OF THE FINAL PRODUCT – AND ULTIMATELY LEADS TO THE DISSATISFACTION OF END USERS.

NEW FANCY TECHNOLOGIES AND METHODOLOGIES ARE BEING CREATED EVERY MONTH. THEY BRING IMPROVEMENTS TO THE TECHNICAL SIDE, BUT NOT SO MUCH TO PEOPLE-TO-PEOPLE RELATIONS. FINAL SUCCESS SHOULD BE MEASURED BOTH BY PRODUCTIVITY OF THE END USERS AND THE TECHNICAL GAINS OF THE SOFTWARE ITSELF.

KSF NEVER PROMISES MAGIC. WE JUST SUCCESSFULLY COMPLETE EVERY PROJECT WE START. WE BRING STATE OF THE ART TECHNOLOGIES TO SERVE OUR CUSTOMERS IN THE BEST WAYS POSSIBLE!
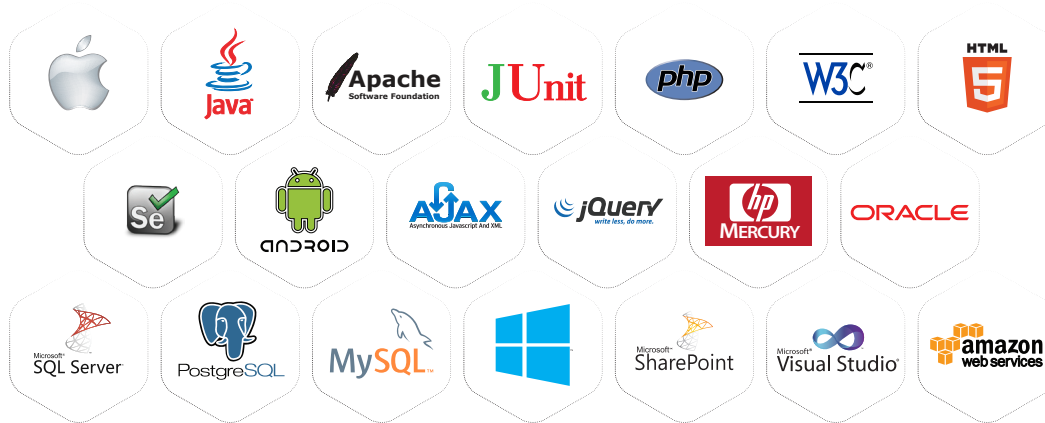

KEY BENEFITS

- We talk at the same level with the customer focusing on business needs and pain points
- We take a comprehensive approach at solution design which considers not only software but infrastructure and customer workflows as well
- Data is the key! Collecting, managing and maintaining corporate data (data warehousing) is a core expertise of KSF Technologies. We work with the most popular DB Management Systems – relational as well as NoSQL (object, graph, document, key-value). We successfully solve tasks in the area of ETL, OLAP, OLTP, business intelligence and reporting
- Our solutions scale and we have a transparent development processes, proven with a wide range of customers from small companies to large enterprises
- Quality assurance is provided as a service and is embedded into the development process
